

## Elements of Success

Elements of Success is a learning analytics platform that helps students achieve their desired course outcomes by providing real-time feedback on their performance. Created at the University of Iowa, this program provides students new insights into their course progress. Elements of Success works best in courses that have a mix of assessment types and have at least 25 students.

KEY FEATURES	APPLICATIONS
Current Standing	Shows scores in both specific sections and the course as a whole..
Performance Graphs	Indicates areas needing improvement with comparisons to the course average and student goals.
My Goals	Encourages student metacognition with goal setting and choice of improvement activities..
Updates	Enables targeted messages from instructors to customized groups of students
Resources	Connects students with course, department, and university resources.
