# Quick Guide to Using Solstice

## Overview of wirelessly connecting your device to share content on a Solstice-enabled presentation display:

- Wall-mounted display or projector should be powered on
- Wall-mounted display or projector should be showing a UI image with information to wirelessly connect using an IP address or a four-digit Screen Key; should these items not appear, please seek staff or contact ITS Help Desk for assistance

## Detailed steps to connect to wall-mounted displays:

1. Connect your device [laptop, tablet, or smartphone] to the **eduroam** wireless network
2. Open an Internet browser on your device and type in the IP address found on Solstice-enabled presentation display
3. If you need to install the Solstice app, please follow instructions to download, or visit your app store; you can also download the app here - <http://www.mersive.com/download/>
4. Following Solstice installation, open Solstice app and go to “Quick Connect” and enter IP address [first-time users] or four-digit Screen Key found on Solstice-enabled presentation display
5. Once connected, view or share content  
**Note - “Mirror Screen” on Apple devices requires “Screen Mirroring” to be enabled on Apple device**  
**Note - copyright protected content cannot be played through Solstice**
6. Before leaving the room, “Disconnect” from Solstice app
